

A ROBUST, IPAD-BASED POS BUILT FOR BUSY VENUES AND THEIR UNIQUE OPERATING REQUIREMENTS.

Every bar and restaurant deserves a point of sale that's equally tailored to their unique needs. UNION POS is the only iPad-based point of sale system exclusively built for high volume, high touch hospitality.

Our POS isn't just a better solution; it's a call for revolution against all the bad solutions out there. UNION offers the most robust POS in the industry, paired with comprehensive, 24/7 live support and completely transparent pricing.

We believe your point of sale should compliment your hard work, not complicate it. With a lightning-fast, intuitive, and customizable interface, you spend less time at the screen, and more time creating great customer experiences.

BUILT ON EXPERIENCE

UNION is a POS platform designed by high volume hospitality owners, and built by developers with decades of POS experience. It is the fastest growing POS in the country for a reason.

LIVE, 24/7/365 SUPPORT

Software, hardware, and Internet connectivity issues can quickly turn a profitable night into an unprofitable nightmare if you don't have the right support when you need it. UNION offers 24/7 phone and email support for your entire POS system. Your POS is the heart of your business, and our job is to keep it beating.

RELIABLE & FAST

Lightning-fast, easily customizable, and uninterrupted by network outages, UNION is the most dependable system available. Perfect for busy locations, our POS allows you to craft amazing experiences for every customer, and turn new customers into regulars.
